Special to the Constitution.

CANTON, February 24.—Cherokee superior court convenes here next Monday.

## Lithonia, Georgia.

A MAD DOG AT LABOR.

LITHONIA, February 24.—Considerable excitement has existed in our community for the past day or so, over the appearance of a mad dog. On Thursday it met and attacked a negro on the plantation of Mr. James R. George, but did not do any damage than to tear his clothes. At night it passed through town at lightning speed, stopping only long enough to attack E. N. Brown, W. Almand and R. W. Miller. It bit none of them, but tore Mr. Miller's clothes. It is reported that a reward is offered for the missing part of the breeches. The dog has not yet been found, but we are all on the lookout.

## Barnesville, Georgia.

One fact deserves special mention: the money to build this church has been raised right here in Barnesville. Mr. G. E. Hugley has about finished his new and handsome residence.

## Woodstock, Georgia.

## Jonesboro, Georgia.

AN EPILEPTIC FIT IN COURT.

SPECIAL TO THE CONSTITUTION.—JONESBORO, February 24.—Yesterday the cases of the theatrical company vs. the central railroad, damages for burning baggage were set for trial. The first case was commenced and continued till noon recess. The following recess Captain W. L. McRae, had to adjourn it, as it was very severe one. He fell in the jury room to the right of the judge's stand, no one being in the room but himself. He is now recovering. The railroad cases were all continued till next term.

The State vs. John Bernard, James Mitchell et al known as the cotton case, was continued for the term, and the witnesses in those cases was notified not to come next week.

## Gainesville, Georgia.

THE MURDER TRIAL.

GAINESVILLE, February 24.—Twenty witnesses have been examined since my first dispatch, and the court has taken a recess until Monday morning at eight and a half o'clock. The trial will probably consume all of Monday. Counsel for the defense announced that they will fight it out very pointedly with the prosecution. The State also has other testimony. This morning the defense went on to sustain the alibi by numerous witnesses, proving that Bowles was not here on that day or night; the members of his family swearing that he was at home sick. The State rebutted that with a number of witnesses showing that he was here. The drift of opinion to night is largely in favor of Bowles's innocence. Other important developments are claimed by both sides to be forthcoming on Monday morning. Interest increases as the trial proceeds.

## Bona, Georgia.

THE STARS AND STRIPES IN THE DUST.

SPECIAL TO THE CONSTITUTION.—ROMA, February 24.—During the hard wind this morning at seven o'clock, the Liberty pole, one hundred feet high, which stood on Broad street, and from which floated the large flag presented to the city by Captain W. L. McRae, U. S. A., fell to the ground, trailing the stars and stripes in the reddest of north Georgia mud, and breaking down all the telegraph wires.

## DANGEROUS LANDSLIDES.

## A MECHEIAN BURGLAR.

W. F. Treadaway, a merchant of Cedartown, was convicted yesterday of burglary, and sentenced to two years in the penitentiary. Court convenes in Walker county on Monday. As the courthouse was recently destroyed by fire, the court will be held in the Baptist church.

## Savannah, Georgia.

A BODY FOUND FLOATING IN THE RIVER.

SPECIAL TO THE CONSTITUTION.—SAVANNAH, February 24.—The body of a colored man was found floating down the river some five miles below the city by a pilot and brought up. An inquest to day developed the fact that it was the body of a man named Scott, who disappeared several weeks ago. The body was horribly decomposed and difficult of identification, but afterwards recognized by his wife. The verdict was accidental drowning.

## Lubedder's SUICIDE.

From the Greenbush, Ga., Journal.

W. G. Johnson, proprietor of the hotel, was first sworn and testified as follows before the coroners' jury: "I know she deceased well. His name is William Lubedder. He came to my house on last Saturday evening and a room was given him. I didn't see him Saturday night, but he was at breakfast Sunday morning. I did not see him again that day. He came in Sunday night about ten o'clock. He was drinking heavily at the time. Yesterday morning I found him in his room as it was a bowl and pitcher had fallen on him and broke. I went up to see what was the matter and found Mr. Lubedder shaking and trembling, standing near the bed. I noticed an empty vial, which had had morphine in it, and I said to him, 'Billy, you have been taking morphine, haven't you?' He said, 'Yes, my stomach is out of order and I am compelled to take it.' He said, 'I feel very bad.' That was yesterday. Last night, about twelve o'clock, I went to see him and he was asleep, and breathing very hard. I saw him again about three o'clock, and he was still sleeping. About six this morning I went up again and found him as he is now, dead. I then sent for a physician but it was too late.

## A Model Farmer.

From the Corinth, Ga., Star.

On Saturday last white hounds hunting with a friend we chanced to call by the home of our old colored friend, Dempsey Henderson. He insisted that we "break bread under his roof, and look at his surroundings." In a short time his wife had prepared us a good dinner, and full justice was done to the same. We found a good house, had stock of all kinds, owned a fine farm, a cabin, a good meat, and oat and wheat fields looking green and healthy. He has nothing to do with politics, but remains at home tilling the soil and worshipping the God who made him under his own vine and fig tree. We delighted to note the prosperity of any man in Newton county, he be black or white.

Anderson, who confined him in jail to await the arrival of T. B. Blount, sheriff of McIntosh county. Gadson had been charged with shooting another negro at Darien over a year ago. For about a year he has been living at Cochran, and was preaching for one of the colored churches of that place.

THE CONSTITUTION,  
Atlanta, Georgia.

ATLANTA, GA., FEBRUARY 25, 1883.

INDICATIONS for the south Atlantic states, cloudy weather and rain, followed by partly cloudy, slightly warmer weather, northeast winds, shifting to south and west, lower barometer.

The struggle between the friends and foes of the senate revenue bill will have a chance to align themselves to-morrow. It is evident that the republicans do not approach the test with their usual confidence, and the result, therefore, is very uncertain.

The Georgia hog of a bygone generation was a marvel of toothlessness when properly served up. Anything which will restore the old-time flavor cannot fail to merit attention. The arichoke as an article of hog-consumption is highly recommended.

The folly of clergymen attempting to act as bankers, is again illustrated in the financial wreck of the Augustinian society, in Massachusetts. Religion and speculation have never got along well together. Let the priest cling to his altar, and the Shylock to his percentage.

ATHENS has a prisoner who may prove to be an elephant on her hands. His wife asserts that he was connected with the Defoor murderer; Atlanta officials do not take kindly to the alleged discovery; Jackson county does not want him; and Clarke county feels loath to give him up.

The starry banner was trailing in the mud yesterday. Rome threw it to the breeze on the tallest pole she could find, but the fitful breezes proved too much for the pole—hence the indignity to the standard. Congress need not appoint a committee of investigation, as the Romans will have it in place again directly.

MAJOR SLATON, superintendent of the city public schools, says that no such an accident as the late unfortunate occurrence in New York, by which eighteen school children lost their lives, could ever occur in Atlanta. The school buildings are erected with a special view to avoiding such frightful casualties and now that New York has been visited by the recent sad calamity Atlanta can see the wisdom of the style of architecture upon which her school buildings are erected. It is a matter for congratulation.

MR. GEORGE G. DAVENPORT, general distributing agent of the United States fish commissioner, has come to Atlanta for the purpose of establishing here a depot for the distribution of German carp. This is an important step and indicates that the government is really in earnest in the matter of giving encouragement to the raising of this popular fish. The selection of Atlanta as the distributing point was, in view of the peculiar situation of the city, a wise one, and will give universal satisfaction.

### THE BRADLAUGH CASE.

After a contest covering three years, the member for Northampton will probably be able to boast that he has won the seat to which he was elected, by effecting a revolution in parliamentary oaths. Heretofore no member-elect could take his seat without first calling upon the Supreme Power to witness the obligation. The government now asks parliament to authorize the seating of members on affirmation, and the chances are that the proposition will be adopted, and Mr. Bradlaugh seated.

Mr. Bradlaugh's atheistical opinions and his ill-behavior should never have entered into the case at all, for it was not so much himself that has remained unrepresented since May, 1880, as the people of Northampton. The house was full of bigotry when Mr. Bradlaugh first sought to be allowed to affirm, and it must be confessed that Mr. Gladstone displayed less courage in connection with this subject than he has over any other matter that has come up during his administration. The case has been a singular one throughout. After a select committee had reported against Mr. Bradlaugh's right to take his seat on affirmation, he offered to take the oath. He had however previously stated that if he took the oath he would not consider it binding. He proposed to waive his scruples simply to conform to the rules of the house. The house thereupon refused to let him conform to its rules. After another committee had reported in favor of allowing Mr. Bradlaugh to test his case in the courts, he was allowed to take his seat on affirmation. This was in 1880. The court unseated him, holding that he was liable to heavy fines for every vote he cast. Northampton remained true to him and he was re-elected in 1881. When he again asked to be sworn in, Mr. Gladstone refused to take hold of the question, and he was kept out of his seat by a decisive vote chiefly cast by the tories. In August, 1881, Mr. Bradlaugh attempted to take his seat by force, the doorman and six policemen forcibly carrying him off the scene. When parliament met in January, 1882, he was again refused the privilege of taking the oath, and a little later in the month he slyly gained admission to the house, and as slyly administered the oath to himself. The house would not recognize this manner of taking of the oath, and he was forced to withdraw. Recently a great meeting in support of the representative of the shipmakers of Northampton was held in Trafalgar square, and it is charged that the threatening nature of this meeting induced government to present a bill to authorize affirmation. But it is not strictly a ministerial bill, and its defeat will not lead to its resigna-

tion. The cabinet still hold that it is a most mischievous tendency. If it is established that when a treasurer is found to have made a way with the money confided to him, he will be released on the payment of the default, there will be great temptation and little restraint to private speculation and investment with all sorts of trust funds. We should be glad to see Tennessee secure her money. But she could well afford to shave her repudiated bonds a little closer rather than sell Colonel Polk a pardon, or dicker with him for his freedom.

LONG before the beginning of the star-route trial Bob Ingoldsby had convinced the country that eloquence is an instrument that can easily and effectively be employed in behalf of Satan. There is this distinction, however, while the star-route thieves are compelled to pay him a big fee, he undertook to preach the cause of Satan without fee or reward.

MR. BILLY CHANDLER alludes to himself as Commander Gorring's "superior." Mr. Billy is in earnest, too. The reason Mr. Billy is the commander's "superior" is because Mr. Billy doesn't understand that as naval officer can be sensitive in regard to "suggestions" about his character.

Colonel Polk's friends present a very plausible argument for his release on the repayment of the money he owes. They say the charge against him is that he is behind in his accounts with the state, and when this is officially shown he will offer to settle, just as any debtor with any creditor. It is said that as a last resort his friends will pay back every dollar and square his accounts in full. If this is done, it may be asked how he will be prosecuted for defalcation when there is no default.

The crime committed by Colonel Polk was the misappropriation of the state's funds, or converting public money to his private use. Any condoning of what he has done will have

a most mischievous tendency. If it is established that when a treasurer is found to have made a way with the money confided to him, he will be released on the payment of the default, there will be great temptation and little restraint to private speculation and investment with all sorts of trust funds. We should be glad to see Tennessee secure her money. But she could well afford to shave her repudiated bonds a little closer rather than sell Colonel Polk a pardon, or dicker with him for his freedom.

Last year a consumptive-looking young man came into the front yard where the old negro was working, and after walking around and examining the shrubbery, suggested that appearances could be materially improved by the addition of a few trees and bushes. Uncle Remus mentioned the familiar way in which the young man was now nosing about, and he resented the intimation that the yard wasn't nice looking as he and his Miss Sally could make it.

## A GIDDY GIRL'S ERROR.

ROMANTIC STORY OF LOVE, BURGLARY AND DIVORCE.

A Young Lady Who Played Lovers All Along the Line  
How One of Our Workhouse Inmates Won  
and Lost a Wife—A Tale That Tolls the  
Frailty of the Human Race—Etc.

From the St. Louis Republican.

Friday morning the R-publiican published a brief dispatch from Omaha stating that Annie L. Savage, a remarkably handsome young lady and formerly a society belle of Detroit, had secured a divorce from her husband, William Savage. The story of the woman's marriage reads like a chapter from Dumas, and if worked into a melo-drama would undoubtedly bring down the house. On June 6, 1870, Mrs. Savage, then Miss Manning, was sixteen years old and lived with her parents in Detroit. Her father is a merchant of prominence and good standing, and the young girl, at that time just blossoming into womanhood, was surrounded by a number of Romeo's, who were only too willing to make her a Juliet. The gallants were impudent, but she resisted their appeals, and would listen to no suggestions from her parents regarding the qualifications necessary for her future lord. One day while returning from her music teacher's she met a young man on the street, and was greatly attracted. He was tall and spoke stammering that his name was William Savage and that he resided in this city, where his family occupied a prominent social position. He was tall, slim, well dressed and spoke in a low, musical tone, always using the best of language. He walked with Miss Manning to her father's door, and before they passed an appointment was made for the following day. Both kept it. Mr. Savage, as he called himself, confirmed the good impression that he had made, and after discovering the position which the girl's family occupied, he was soon in the house. At first he was refused, but he insisted, saying that he could be kept secret, or if she wished to leave home, he would take her to the sunny southland, and then bring her to this city and introduce her to his family. The girl consented and the pair were married. The parents heard of the matter the next day, and three days after the ceremony was performed "Mr." Savage was taken on charges of burglary and larceny. His record was then published in the papers and the unfortunate woman discovered that her "husband" was a newly made burglar in the most notorious burglar in the west. The money which had been spent during the three days' honeymoon was the proceeds of the burglary for which the man was arrested. The young woman's relatives took charge of her, and the "mashing" burglar lay in the Detroit jail all that summer. In the fall he was found guilty as charged and sentenced to the Jackson penitentiary for three years. He served his time, and after his release started in search of his wife. They met and he endeavored to blackmail her. She repudiated him, and he then demanded her with all sorts of vengeance. Fearing for herself and family she gave him the money he required, and he soon after disappeared. His disappearance was caused by his arrest in this city by Detective O'Neil, on charges of burglary and larceny. He remained in jail here several months, and when tried was found guilty and sentenced to two years in the penitentiary at Jefferson City. He was released only a few months ago, and had not been free more than a week when he was arrested by Detective Lawlor and Desmond, on Thirteenth and Olive streets, for grand larceny. His great specialty is "house work," and he had just stepped out of an Olive street boarding house with several coats and silk dresses on his arm. The detectives recognized him and he was taken to headquarters, where his picture was taken and placed in the rogues' gallery. He was placed in jail and indicted for grand larceny, but by consent of the attorneys for both sides he was allowed to plead guilty and was sentenced to the workhouse, where he is at the present time. The suit for divorce was filed in Omaha some time ago, and in it Mrs. Savage alleges that her husband never contributed a cent to her support, that he is a professional burglar, and has been confined in a number of penitentiaries. She never knew him as a husband and could not tell the court whether he was dead or alive.

SHE WAS GRANTED A DIVORCE.

William Savage, alias Kelley, is well known to the police of this city and Chicago. The detective state that he is an expert burglar and larceny man, and has had good hauls. After being released from the Jackson penitentiary in 1876 he went back to Detroit, and put up at the Michigan Exchange hotel. The next morning one of the guests in the hotel woke up to find that his room had been entered during the night and robbed of valuables approximating \$4,000. The property consisted of simple silverware, a gold watch and \$1,800 in bills. No arrests were made, but Savage was put down as the man that did the work, although no evidence could be found against him. He "worked" for a while for a thief named Blackie, until the latter was arrested in Dixon, Ill., and sent to Joliet for seven years for shooting a man while attempting to burglarize his residence.

Savage is described at present as being consumptive and the sentences which he has undergone have had the effect of weakening his nerves so that he will not undertake a big job but has dropped into the ranks of the petty thieves.

Piles are frequently produced by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatulence, and the common griping pain, like peristalsis, producing a very disagreeable itching particularly at night after getting warm in bed. It is a very common attendant. Blind bleeding and discharge from the rectum are the symptoms of Dr. Rosadalis' Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, alleviating the intense itching, and effecting a permanent cure. A NEW SCHOOL BUILDING.

What Was Done at the Meeting Held at the Constitu-  
tion Office Yesterday.

Yesterday at one o'clock p.m. a meeting of citizens was held in the business office of the ATLANTA CONSTITUTION to take measures to form a stock company for the purpose of purchasing a lot and erecting thereon a building suitable for a private high school. General C. A. Evans was made chairman and Professor T. E. Means, who proposes to lease the property. According to the articles of agreement, the amount to be raised is twenty thousand dollars, while the amount to be held in the bank, no subscription is to be collected until the whole amount has been taken; W. A. Hemphill, R. F. Maddox, H. Boylston, F. B. Abbott and T. E. Means.

Mr. S. M. Inman, in a short address, spoke of the necessity of such an institution, of the benefits and pleasure which would accrue from the same. He stated that the present school was not sufficient. That it was an enormous idea to accumulate property for one's children to the neglect of their education, as well as that of their parents. That in order to secure the best educational results, buildings commodious, well ventilated and with pleasant surroundings are necessary. He further stated that the property is known to his daughter now at Mrs. Ballou's, who enjoyed all the comforts of a first-class school instead of being crowded in the rooms of a dwelling house or other building ill-adapted to school work, more than compensated him for the money invested therein.

Other speakers were in favor of the enterprise, among them Mr. W. A. Hemphill, who was unanimously adopted and the building board was authorized to raise by subscription of stock the amount above mentioned.

At the meeting, T. E. Means, who was chosen to be the chairman, was further authorized to appoint a committee of three from each ward in the city to act in operation. The meeting adjourned subject to call again.

The Evening "Journal," Colonel Hoge's paper, made its appearance about 4 o'clock, and met with ready sale. It was a creditable first issue, especially in view of the fact announced in its columns that it was to be a weekly paper. Mr. Hoge, however, said that it appeared in rented type because it did not care to be foreclosed by the star, that was announced to appear on Saturday.

## SOCIAL GOSSIP.

THE WEEK AND ITS ENTERTAIN-  
MENTS.See People Were and Elsewhere.—The Marriage Ses-  
sion in Full at Social Clubs and Restaurants.  
Rumors of Star- and Footlight Happi-  
ness.—Fashion Notes—Women's Way.

It is doubtful if Atlanta has had a quieter week than the one just passed. Part of the week clouds overhanging the city, the sun refused to sparkle like the eye of a bridge, in fact, the outward influences have been depressing. To sum up the society news of the week would be to say, one or two quiet marriages, one or two club meetings and a few straggling dinners. This week of Lent has certainly been a penance to our society people generally.

Chandler and Mr. John Coggin. The bridegroom is a man never before appeared in society, and the groom more handsome than when the benediction was pronounced declaring them "husband and wife." The church was very appropriately decorated with evergreens. The bride, Mr. M. C. Coggin, was under an arch on the one side and a large unbroken circle in the center under which the happy twain were made one. The number of "bald heads" attended the "Black Cuckoo" matinee Saturday—five of them in the arm of nurses.
